Data sheet

TS-EZ4.0

- TS-EZ4.0 is a height adjustable desk system that can be installed quickly, with flexible design and compact structure. Compared with the conventional frame, TS-EZ4.0 system can complete the assembly between the lifting column and the frame in only two steps after the side panel is installed, and then install the feet on the two columns to get a complete height adjustable desk system , It greatly saves installation time and provides convenience for consumers. At the same time, TS-EZ4.0 system is equipped with inline
- lifting column, the stability of the whole standing desk is better, the noise is lower, and the self-locking force is stronger. TS-EZ4.0 system is also equipped with anti-collision function to ensure the safe operation of the standing desk.

Features

- Quick install
- Using inline lifting column
- Speed: 35mm/s
- Rated load: 1250N
- Static self-locking force: 5000N
- Height adjustable range: 610mm-1260mm
- Scale range: 1165mm-1565mm
- Noise level: ≤50dB
- Surface: powder coating
- Standard colors: black, white, gray
- Total weight: 28kg
- Packing specification: 1085*325*200mm
- Packaging requirements comply with 3A standards

Options

- Customized colours
- Compatible with all the handsets

Usage

- Duty cycle: 10 %, Max. 2 minutes operation/Min. 18minutes rest of continuous use at full load
- Working environment: Indoor
- Storage and transport temperature: -10℃ ~ 70℃
